

FA-632PR(RF) RF2.4G Wireless Thermal Printer

Via RF2.4G Hz wireless dongle, the printer receives and prints the measurement data from the medical scale
Extremely compact design

- 2-button operation (On/Off & Paper feed)
- Thermal dot line printing
- Number of dots/line: 384dots
- Resolution: W 8dots/mm x H 16dots/mm
- Max. printing speed: 40mm/sec
- Max. paper roll diameter: 50mm
- Printing width: 48mm
- Wall mounting
- With curved paper path
- Error and power indicators

Platform material: Plastic

Platform Size: 300 x 220mm

Product dimension: 110 x 110 x 107 mm(Approx.)

Product weight: 0.3kg (Approx.)

Operating temperature: 20°C-50°C.

**RS-232 output standard communication with scale
(RS-232 cable included)**

Power: 1 X AC adaptor: 100-240V input,
12V [2A] output (DC adaptor included)
